ABOUT US

MGA was established in the UAE, during 2022. At MGA, we are dedicated to offering you the best service with a team that is highly skilled in the field, offering our clients continued support from design to execution. We value quality design, teamwork and project management as these are the components we strive for to achieve success. We specialize in design, fabrication of aluminum, steel and various types of facade claddings as well as construction of aluminum and glass facades, curtain walls, balustrades, atriums, and skylights. MGA is committed to complying with regulatory and contractual requirements. To achieve these aims MGA has established a quality management system that is based on the requirements of ISO 9001:2015. Our team also offers quality planning, execution, and delivery with the ability to understand challenges and craft solutions. We place our people, clients, and end users at the very core of every decision.

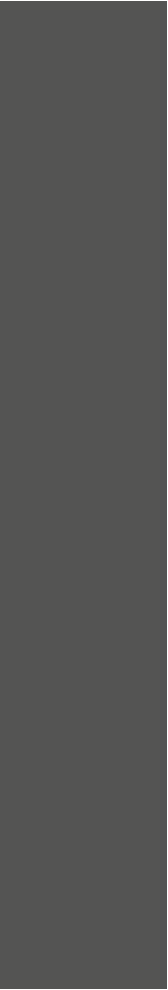

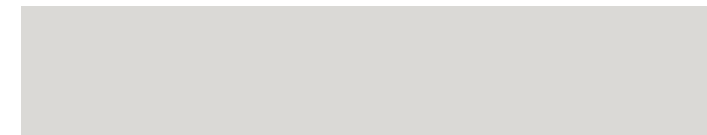

FOUNDER

GEORGIO AOUAD

MANAGING PARTNER

Georgio Aouad, a Civil Engineering graduate with over 16 years experience in the facade industry. His experience has enabled him to approach and execute complex and highly crafted projects. Working in various domains that include glass processing, aluminium and accessories supply, façade fabrication and Installation, exposed him to all project stages and requirements, and seen from different perspectives. Growing in a family business and working in multinational companies, Georgio had faith in his growth and success over the years which encouraged him to setup his own company. Georgio will always be looking for challenging opportunities to contribute to his continuous success in life and in his organization.
